Jul 2025 – Sep 2025

Web Development Intern

- Supported end-to-end development workflows, contributing to 2–3 key deliverables and improving team productivity.
- Built reusable components, implemented dark mode, and enhanced UX, improving user experience by 30%.

Punjab Information Technology Board (PITB)

Jul 2025 – Aug 2025

AI/ML Intern

- Contributed to AI/ML/DL projects, supporting 3+ core components across development pipelines.
- Improved task execution efficiency through structured workflows and cross-team collaboration.

Extracurricular Experience

The Talent Beacon

Jul 2026 – Present

Campus Ambassador

- Created Canva-based promotional content and drove student engagement through targeted campaigns.
- Supported career readiness initiatives and early-stage outreach to expand program participation.

Aspire Institute

Jul 2026 – Present

University Leader

- Selected for a leadership program focused on empowering communities through professional development.
- Completed certified leadership training and led peer outreach to drive campus awareness and engagement.

Education

FAST National University of Computer and Emerging Sciences

2023 – 2027

BS Computer Science

Technical Skills

Business & Sales: Lead Generation & Prospecting, CRM, B2B Sales, Market Research & Analysis

AI/ML: PyTorch, TensorFlow, Keras, Scikit-learn, CNNs, OCR, Transfer Learning, Model Deployment

MLOps: MLflow, DVC, AWS S3, Docker

Backend: FastAPI, Node.js, Express.js, REST APIs, Authentication

Frontend: React.js, Next.js, TypeScript, Tailwind CSS

Projects

Medirator – AI Healthcare Platform

Live

- Built an AI healthcare platform with CNN-based X-ray diagnosis and symptom-based disease prediction (377 inputs), deployed on Hugging Face. Built using React, FastAPI, MongoDB, Gemini Pro API.

Fixify – Service Marketplace

Live

- Engineered a full-stack service marketplace with 9+ categories enabling seamless client-provider interaction. Built using React, TypeScript, FastAPI, and MariaDB with secure authentication and role-based access control.

Curator – AI Wardrobe Assistant

- Developed a YOLO-based fashion recommendation system using similarity learning for context-aware outfit suggestions using an MLOps pipeline (MLflow, DVC, AWS S3).

Certifications

- AWS Academy Cloud Foundations
- Aspire Leadership Program 2026
- Microsoft Applied Skills: Generate Reports with AI Research Agents
